

CITY OF LODI

COUNCIL COMMUNICATION

AGENDA TITLE: Adopt Resolution Awarding Contract for White Slough Water Pollution Control Facility Chlorine Residual Analyzer Replacements to Borges & Mahoney Company, of Vallejo (\$15,700); and Appropriate \$20,000

MEETING DATE: October 17, 2001

PREPARED BY: Public Works Director

RECOMMENDED ACTION: That the City Council adopt a resolution awarding the contract for the above project to Borges & Mahoney Company, of Vallejo, in the amount of \$15,700; and appropriate \$20,000 for the project.

BACKGROUND INFORMATION: This project consists of replacing two 10+-year-old chlorine residual analyzers, which control the chlorine and sulfur dioxide dosages at the White Slough facility. The chlorine analyzers are critical to plant operations and in need of replacement this budget cycle.

The two chlorine analyzers were installed in 1989 and in need of more frequent repairs, which indicate they are nearing the end of their useable life. Because the failure of either unit would cause a discharge violation, both units require replacement at this time. One fine for a discharge violation of this type could exceed the cost of replacement. Installation will be performed by Facility staff and our Instrumentation Contractor.

The requested appropriation is less than the budget project estimate because the original estimate, developed by our Master Plan consultant, included engineering and installation costs. The purchase and installation by City staff will result in significant savings. The additional appropriation over the contract amount is to cover contingencies during installation.

Specifications for this project were approved on September 5, 2001. There were three bid packages sent out, but this is the only bid the City received.

FUNDING: Requested Appropriation: \$20,000-- Wastewater Capital Budget
